

smart energy saving in warehouses

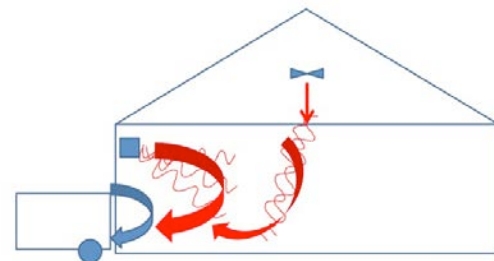

Opened industrial doors lead to a significant loss of energy

....

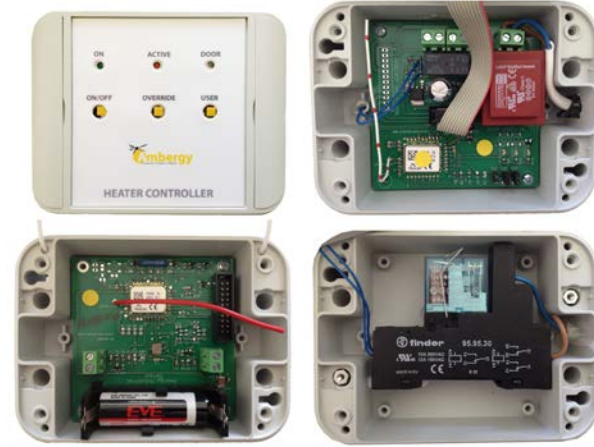

by airflow and draught.

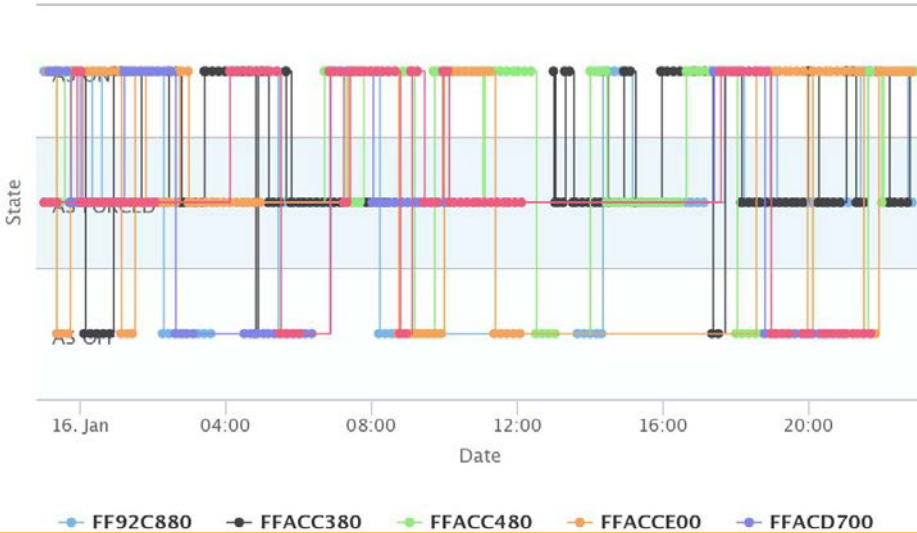

Amberg prevents unnecessary energy loss due to opened doors...

and encourages behavioral change among employees

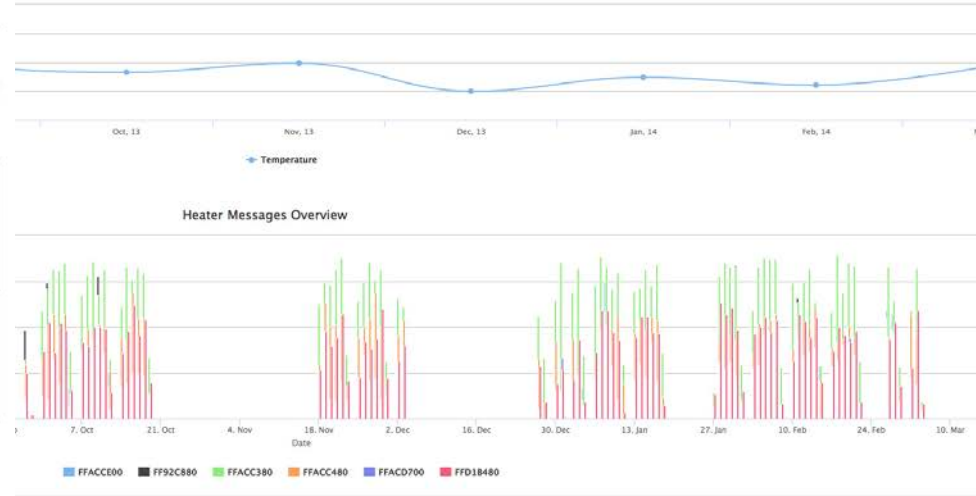

Sensors on doors (wireless)
Controllers at heaters (wireless)
User interface for employees
Data collection

Time Heater State

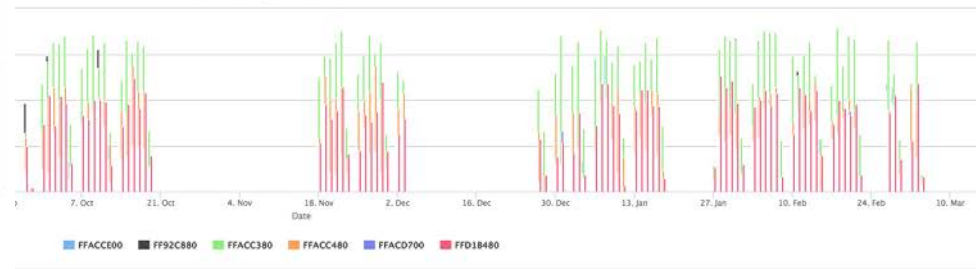

Monthly Average Temperature

Based on sensor data. (Latest Data)

Heater Messages Overview

45,935
Amount Heater Records

Data-analysis

*energy and usage monitoring
process optimisation
scheduling of docks
facility management*

6,000 m²

500 m²

ALPHATRON

1,100 m²

Delft University of Technology

4 years of field test
1 year of research at TU Delft

Benefits

1. Energy savings
.... up to 28%
2. Plug & play
3. No structural facilities required
4. No permissions required
5. Changing behaviors
